

ALUMNI NEWSLETTER

LENOX, MASSACHUSETTS

MARCH, 1970

March 20, 1970

Dear Alumnus:

This first Alumni Newsletter is devoted entirely to the information we have received from you who returned the questionnaire by March 10. The bulk of the material consists of brief profiles of individual alumni — their occupations or schools, marital status, geographic location and their hobbies and interests. Graduates are listed by class, beginning with 1941 and concluding with 1969. The table at the end of the Newsletter gives statistics for all classes from whom we have received more than two questionnaires.

The information given here is not intended to replace the Alumni Directory, which will give complete addresses and telephone numbers. We had originally planned to begin compiling the Directory, to include only the graduates who had sent us current addresses, this spring. However, at the time this Newsletter was submitted for printing, we had received only 281 questionnaires. Anticipating more returns, we shall wait several weeks before writing the Directory.

Sincerely,

William E. Terry

STATISTICS

The statistics in this table represent data from the Classes of 1956 through 1969. The classes of 1941, 1948, and 1954, mentioned in this profile, are omitted from the chart because of their small size. With the exception of the average number of children, which is absolute, all figures are percentages, and all are derived from the 281 returned questionnaires. Statistics for certain college degrees earned are omitted for the Classes of 1964 through 1969, since the terms of the respective degrees are greater than the length of time since the classes graduated from Windsor.
